

August 26, 2016

Good evening,

This message is from the Center High Athletic Department.

Parents, if you have a winter or spring athlete who is not already playing fall sports at Center High you are now encouraged to begin the process of renewing your athlete's physical and inputting all information into our new web based electronic SportsNet information system.

To access this system-

- Please go to the schools homepage website
- Click on the "Athletics 2016-2017" box located top center screen.

Scroll down middle right of screen to the "new sportsnet system" box and follow all the directions.

Making sure to download the "Athletics Health Screening Examination" form needed to complete the physical process.

- Take this form to the doctor, complete a physical, - making sure the form is signed by the doctor, the doctor checks off the "cleared" box, which is located on the lower right corner of the form, and the doctor's office has stamped the form.
- Then return to CHS athletics website-
 - Click on the red highlighted "sportsnet.Inc website" tab located lower right screen.
 - Follow the step by step process, making sure to also up load the physical form along with required information, including your electronic signature.

If you son or daughter is already playing fall sports for CHS and cleared to play do nothing, but

- For winter athletes please complete process by October 25, 2016, and
- For spring only athletes please complete process by January 24, 2017.

This two week window before start of each season of sport allows the athletic department to fully clear your student-athlete, while allowing a window of opportunity to correct if a need arises; **also be aware that student-athletes must have a valid completed physical and all information uploaded into sportsnet to participate in any off season or pre-season conditioning from this point forward.**

Thank you and good evening.
